CRITERION I – CURRICULAR ASPECTS**1.1 – Curriculum Planning and Implementation**

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

The college develops and deploys action plans to achieve the objectives and effective implementation of the curriculum. • The college ensures that some of the lectures are delivered by Power Point Technology. The students are also encouraged to take their teaching lessons using different types of teaching materials, PPT and ICT. The college has started to make this practice operative for the students; therefore students are motivated to join the primary courses of computers which are run on the same campus under the guidance of resource persons. • In almost all the teaching classes before the end of period, ten minutes are given for doubts to be expressed by the students, and for addressing critical aspects of the contents and discussion. • High quality lesson plans are given publicity among the students. • Students are guided to organize seminar, group discussion, peer teaching, team teaching, etc. • Teacher educators generally use information published in educational journals and it is introduced well to the students. Students are also motivated for further reading in their own subject. • The college has tentatively introduced multicultural education and it has decided to give it final shape. • The college has also visualized a project based study/teaching of civics, history, geography, social issues, etc. by teaching the same through past relics, artefacts, etc. It will be a multidimensional approach in learning/teaching through cultural resources/sites/objects. • Application of constructivist approach is on the active agenda of the college. • Exploring our own classroom practice is yet another innovation that we propose to introduce soon. Its details are as under: The first step is to gather information about what happens in the class. It is to be done as under: Teacher diary: After each lesson teachers are to write in a notebook about what happened, describe their own reactions to what they observed on the part of the students. They would pose questions about what they have observed. Peer observation: Student-teacher would invite a colleague to come into their class to collect information about their lesson. This may be through note taking. This relates back to the area the teachers have identified to reflect upon. For example, the colleague is to be asked to focus on which students contribute most in the lesson, what

different patterns of interaction occur or how the teacher deals with errors. Effective professional development is on-going, includes training, practice and feedback, and provides adequate time and follow-up support. Successful programmes involve teachers in learning activities that are similar to ones they will use with their students, and encourage the development of teachers. There is growing interest in developing schools as learning organizations, and in ways for teachers to share their expertise and experience more systematically. Course Outcomes have been developed, each faculty member who is assigned to teach a specific course develops a Unit-based and Subunit Based calendar of activities for the entire term to facilitate the learner well in advance about the academic schedule

1.4 – Feedback System

1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Yes

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained

An annual Feedback was conducted to assess the satisfaction of educational institution regarding the services of our college. Every year we gathered information from Students, Parents, Alumni, and stakeholders by a feedback form. It helps us to gain an insight into how college could improve on various parameters. We value feedback and treat it with highest respect, courtesy, value and confidentiality. A brief analysis of the feedback is as follows- Feedback from students- Gathering feedback from students is a great way to get glimpse into their experience in the college campus. Feedback from students is helpful in several ways and builds a sense of goodwill between the students and institution. Students have rated teachers on various dimensions. Using rating scale then it is analysed for every teacher by providing weightage to different attributes. It was summarized that teacher has all round and complete knowledge not only in the subject are but beyond that. The teacher uses various means very effectively to make student knowledgeable and wise. The teacher has very high degree of self-discipline, passion and devotion for the teaching profession. Parent's feedback- Feedback was sorted and the opinion obtained for each parameter is represented as percentage of total number of feedback response obtained for that parameter represented in parentheses. Percentage overall average of rating was also computed for each academic session. On analysing the feedback received, over the course of time by the parents, it is observed that parents are largely satisfied by the efforts made by the college administration in admissions, teaching and learning, discipline and other related matters and high degree of satisfaction has been shown by the parents on implementations of some of the suggestions made by them. Alumni feedback- Though the college has a history of years, its alumni can be traced into various fields like social, political, entertainment and industry. Alumni are very special for the institution and create reputation through their success in their career path. Alumni network forms a bridge between the current students and alumni. Mostly alumnus were the satisfied with the facilities provided to them by the college as library canteen and computer lab etc.. After the analysis of the feedback, college works constantly for the improvement of teaching and learning process to maximize the benefit of the resources to the students. Every suggestion is carefully evaluated and taken in right spirit and

uses same to improve different areas of services.

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

College has adopted a Mentoring System as a student support measure. A mentor is a teacher acting both as a friend and a role model over a small group of students assigned to each mentor. Mentor records the profile of all the assigned students with regards to their academic performance and participation in campus activities and any other initiative. Mentee can contact their mentor for any academic or non-academic support. The mentor guides a student in his /her academic, emotional and psychological development, particularly in the latter's transition phase. The mentor guides his wards to take out the best in him/her. In this system, Each faculty member is the mentor of a group of 14-15 mentees allocated to him/ her by the Principal of the Institute. The teacher mentor collects personal information from the mentees without touching sensitive issues or any information out of the mentee and then provides the needed counseling to her/ him. Critical issues are brought in the notice of the Head of the Institute. The teacher meets the mentee formally or informally outside class hours as well and guides them regarding their career options. A documented record of the mentoring process is maintained by the mentor teacher for reference purposes. Types of Mentoring: Course-specific – regarding attendance and performance in the present semester and overall performance in the previous semester, participation in various activities on and off campus. Professional Guidance – regarding self-employment opportunities, entrepreneurship development, morale, honesty, and integrity required for career growth. Career advancement – regarding professional goals, selection of school or institute for career, higher education, competitive exams etc. Role of Mentor: • Meets the group of students at least twice a month. • Continuously monitors, counsels, guides and motivates the students in all academic matters. • Advises students regarding choice of electives, project, assignments etc. • Contacts

parents/guardians if situation demands e.g. academic irregularities, negative behavioral changes and interpersonal relations, detrimental activities etc. • Advises students in their career development/professional guidance. • Keeps contact with the students even after their graduation. • Intimates Principal and suggest if any administrative action is called for. • Maintains a brief but clear record of all discussions with students • Maintains a brief but clear record of all discussions with students.

Plastic Free Campus Smoking Free Campus Large Area Green campus Proper Sanitation facilities

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

Best Practices 1 1. Title of Practise: PROMOTION OF WOMEN EDUCATION Fee reimbursement/waiver of poor student Objective of Practice • Money should not hinder the education of needy children • Encourage girls to pursue higher education • Promotion of girls education in the remote region of CG • .Empowement of girls through education • Contribute to the national development programmes through educating girls • Provide skill oriented training alongwith higher education programme The context SSM,Sakti has special consideration is up-liftment of girl students belonging to the socially and economically weaker family und who could not manage to proceed higher education because not in position to pay college fee fully or partially . These student’s fees are exempted fully or partially as per the case. This proves to be a milestone in their career who could otherwise aloof themselves from higher education. The college receives such applications during its admission process at the start of session. Lookingattheprimafaceandinfavourofthestudent,theyareadmittedwithnofee subjectedtophysical verification of students claim. A committee constituted by the college management examines all the applications and conducts personal interaction with the girl students to ascertain whether to be given full fee concession or partial. These students depending on the situation are given partial or full fee/partial/ scholarships. Free library facilities with course books ,competitive books ,magazines and other support have performed appreciably in life. The Practice Poor and economically deprived girl students who want to pursue study in reputed college like us in region ,who would otherwise would left higher education are education themselves due to economic reason are provided opportunity with a mission to fulfil responsibility towards

community The verification of students remains too hectic for our college members .all thanks to our respected faculty that they know the value and outcome of the practice, they do selflessly apart from their own busy Best Practices 2 Title of the Practice: Emphasis on Practical skills Objectives of the Practice: 1. Learning by doing 2. to make the students fit in the real world 3. productive use of theoretical knowledge 4. students can develop and apply their skills in real working conditions without facing much trouble making them employable The underlying principles of this practice are to strengthen and support students' knowledge by providing them practical environment where they can learn really that helps their career. The concept of emphasis on practical skills is to produce potential and skilled workers to the institutions or companies or to the organizations there by to build a strong nation with skilled people. Evidence: SSM, Sakti successfully conducted skill oriented income generating courses for students to build competency on the defined short duration certificate course. Some of the students who have completed SSM certificate course have started their own work at home on small scale to generate some income. SN: Name of the Course Year of Starting Duration No. of seats 1 Electrical Fitting 2019 2 weeks 10 2 Certificate Course in MEHDI 2019 2 weeks 20 3 Certificate Course in COOKING 2019 1 MONTH 20 4 Certificate Course in Painting 2020 15 days 20 5.
